

TouchNet App (iOS) installation Guide

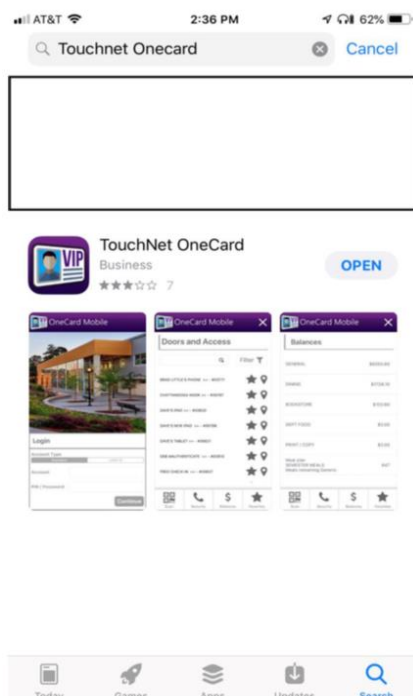

Open the iPhone AppStore

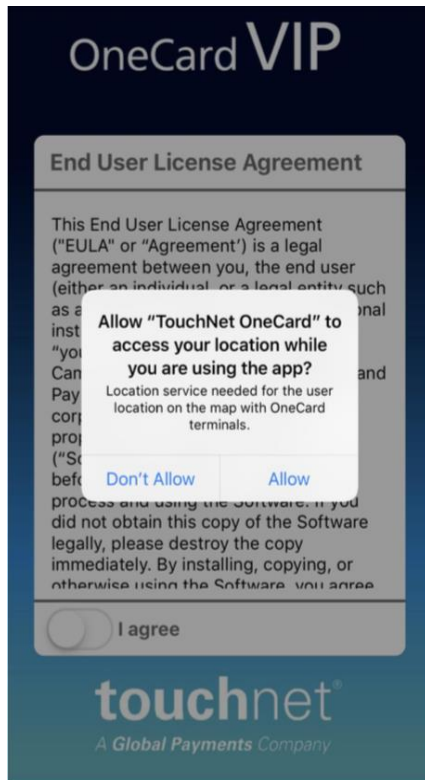

Type in "TouchNet OneCard" and Click search.

This will find the App in the store.

Click the button to download the App.

Click the button that says open, or navigate to the app section of your phone to find the newly installed TouchNet OneCard App.

Upon opening the app

The app will load and ask you if you want to share your location

It asks this so it can tell where you are on campus and allow you to perform mobile swipes for access, meal vending, etc.

Please select either Don't Allow or Allow

The app then loads the End User License Agreement.

Look over this agreement and toggle the "I agree" button, to continue using the app

OneCardVIP

Q mmc

Enter 3 characters (minimum) to search your school.

Marymount Manhattan College

Search for Marymount Manhattan College

You can search “MMC” or “Mar”

Tap Marymount Manhattan College.

Login

Account

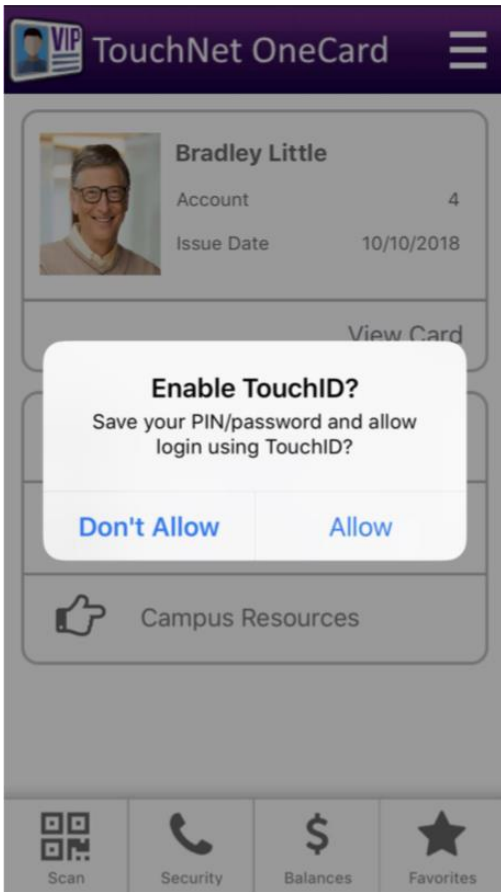

PIN / Password

Continue

Here is the default login screen

Account: MMC ID#

Pin/Password: (User created password from TouchNet OneWeb)

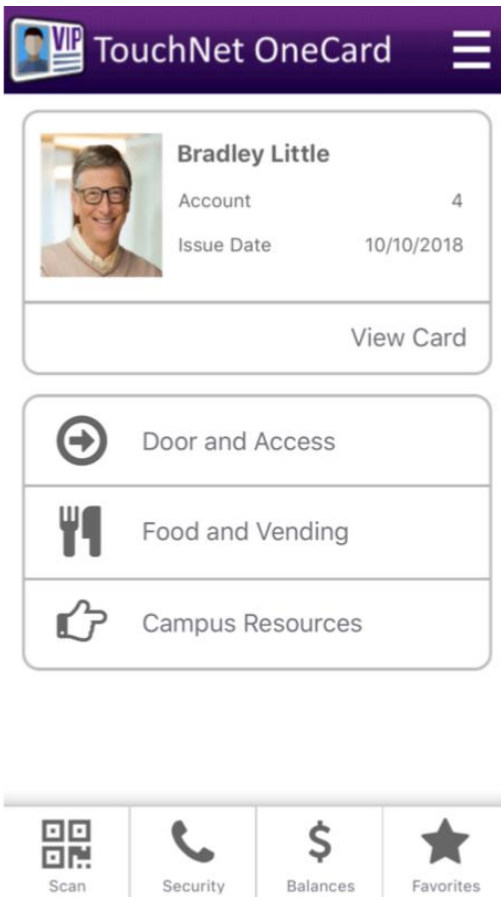

Once you login for the first time the app will ask you to enable Touch ID

You can select Allow or Don't Allow

If you do not have fingerprint credentials stored on your phone this will not work.

You must have a fingerprint ID to store your phone for TouchID to work

You are now logged into the TouchNet Mobile App

* You are granted access at that time. If you have any questions please call 212.517.0580
